

“Agents of Change” FFA Member Workshops

Friday Evening Workshops

Declassified: Sharing Chapter Secrets - Gaelan Combs, Sarah Calaway and Paige Nelson

Agents work in secrecy, but sometimes key information needs to be available to the public. We will look into what ways we can pass on plans for activities to future leaders in our chapters as well as how to communicate with school leaders in continuing strong programs.

CLASSIFIED FILES: State Convention - Jillian Tyler, Emily Kruse and Collin Weltzien

We have a mission to deliver the top-secret opportunities State Convention has to offer to our members – everything from competitions to serving as a delegate. Join us as we uncover new ways to maximize our FFA experience. Are you up to the challenge?

Clues to Your Future - Alexis Kwak, Ashley Hageno and Amber Patterson

Your future is a mystery to solve. Together we will focus on agricultural career pathways with industry professionals to answer some of your questions. Find a pathway that might interest you and start to solve the mystery of what your future holds.

Funding the Mission - Mitchell Schroepfer and Amelia Hayden

Missions are expensive. Learn about what scholarships are available to help you pay for post-secondary education and how to apply. We'll learn about ways to polish up our applications to make ourselves stand out from the crowd!

Saturday Morning Workshops

Agriculture’s Top Agents - Gaelan Combs, Sarah Calaway and Paige Nelson

Agent: a person who acts on behalf of another person or group. As leaders in the FFA, we look to “act on behalf” of the agriculture industry. We will dive into how to use our skills to share agriculture’s story.

Sharpening our Spy Skills - Jillian Tyler, Emily Kruse and Collin Weltzien

Being a good spy starts with you. Are you prepared for the mission? We will reveal our hidden talents and learn new ways we can apply our individual special powers as team members to build rock solid FFA chapters at home.

Agents of Growing, Changing, and Solving - Alexis Kwak, Ashley Hagenow and Amber Patterson

As super sleuths in our chapters and communities, we can identify key areas of growth and solutions for the needs we see. Service is key! Join us on this investigation to make a difference back home at our headquarters.

Operation S.A.E. – Mitchell Schroepfer and Amelia Hayden

The mission of our agents is important to help others understand Supervised Agricultural Experiences. SAEs are for all students. Learn about the different levels of SAEs and how they can fit for every member including those ready to apply for awards.
